ACR Electronics - METSTRADE: ACR Electronics Announces Release of New Survival Kits at METSTRADE

METSTRADE, 14th to 16th November, Stand 03.131

Leading safety and survival specialist ACR Electronics has announced the release of two new all-in-one boating Survival Kits.

Designed to make life easier and safer for boat owners, the conveniently

prepacked premium kits include the essential products needed to quickly abandon ship and alert the rescue authorities of an emergency.

Boaters carrying one of the bags on-board will be equipped with an ACR Emergency Position-Indicating Radio Beacon (EPIRB) or Personal Locator Beacon (PLB) operating on the 406 MHz frequency. The beacons can be quickly and easily activated in an emergency to enable the search and rescue authorities to identify and locate a casualty. The kits also contain a variety of other devices, including distress lights and a whistle, to further help rescuers.

Mikele D’Arcangelo, Marketing Director for ACR Electronics, said: “Our customers can put their trust in the ACR Survival Kits when time is short and no help is in sight. We have developed these kits to offer boaters peace of mind in a bag. When considering the safety of your family and crew, we want to emphasize the importance of investment in premium equipment, particularly a properly-registered 406 MHz beacon developed to save lives. As soon as you buy a boat, sourcing an extensive safety kit that is above and beyond the minimum requirements, should be the utmost priority.”

EPIRB Survival Kit with GlobalFix Pro has a retail value of approximately €500 and includes:

- GlobalFix Pro Cat.2 EPIRB
- C-Strobe H2O Rescue Light
- Hot Shot Signal Mirror
- Res-Q Whistle
- HemiLight 3
- RapidDitch Express Bag

EPIRB Survival Kit with GlobalFix V4 has a retail value of approximately €729 and includes:

- GlobalFix V4 Cat.2 EPIRB
- ResQLink+ PLB
- Firefly PRO Waterbug
- Hot Shot Signal Mirror
- Res-Q Whistle
- HemiLight 3
- RapidDitch Express Bag
