ChartCo appoints New Representative for the Americas Region

Malaika D'souza has been named as ChartCo's new representative for the North and South American regions.

Ms D'souza, who has successfully grown ChartCo's revenues and customer relationships across India and the Middle East over the past 3 years has now relocated to Toronto to take up the full-time position as the commercial lead for the North and South American markets.

ChartCo has taken this move to coincide with the market wide roll out of its OneOcean platform which encompasses the entire suite of ChartCo's navigation, compliance and shoreside monitoring applications, PassageManager, EnviroManager, Regs4ships and FleetManager. These applications offer the highest levels of route planning, navigation management, shoreside operations and maritime regulations management.

“We are investing and growing into many maritime markets around the world such as China, Japan, Taiwan, Canada, and USA” said Howard Stevens, Chief Commercial Officer, ChartCo. “By providing representatives across the world we can ensure that our customers and future customers have the best possible network in their market.”

The growth of ChartCo OneOcean has recently included a new centralised operational reporting tool, LogCentral, which is the latest fully integrated solution soon to join the powerful platform for today's e-navigation and compliance challenges.

About ChartCo

ChartCo is a global leader in digital navigation services and voyage compliance. We provide market-leading solutions that reduce the cost of ship operations, improve situational awareness to owners and crew and assist with the ever-increasing levels of regulatory compliance.

In September 2018, ChartCo launched its revolutionary new platform, OneOcean, which fully integrates the entire suite of ChartCo's navigation, compliance and shoreside monitoring applications – PassageManager, Regs4ships, EnviroManager, Docmap and FleetManager – to provide the highest quality of service in route planning, navigation management, shoreside operations and maritime regulations management.

Today we have more than 13,500 vessels purchasing our products and services each year.

We hold the 2018 SMART4SEA e-Navigation Award in recognition of our accomplishments in facilitating the transition to digital navigation in commercial shipping through our range of software solutions for vessels and shore side operators.
