Cox Powertrain: Cox's German Distributor to Promote the Game-Changing CXO300 at Boote Düsseldorf

Düsseldorf boat show, Germany, 19 – 27 January 2019 – Stand Hall 10/G57

Lancing, UK – 28 November 2018 - British diesel outboard innovator, Cox Powertrain, today announces that MARX has been appointed as its exclusive distributor for Germany and will be presenting the benefits of Cox's ground-

breaking diesel outboard, the CXO300, from its stand at boot Düsseldorf in January. MARX will also be the official Cox distributor for Austria, Slovakia, Hungary, Czech Republic.

Düsseldorf boat show will be celebrating its fiftieth anniversary in Germany and those attending the milestone show will be able to find out more about the highly anticipated CXO300 at stand Hall 10/G57 from 19-27 January. The team from Marx Technik, Cox Powertrain's exclusive German distributor, will be on hand to talk about the industry changing engine, which was launched in October at the Fort Lauderdale International Boat Show.

MARX joins an exclusive global alliance of Cox distributors that have been chosen for their expertise in diesel engine solutions for both professional and recreational maritime users.

Robert Marx, owner and CEO of Friedrich Marx GmbH & Co. KG, speaks about the new distribution partner, "We are pleased to offer the CXO300 diesel outboard engine, a high-horsepower diesel drive solution to our customers in Germany. With its diesel technology, the CXO300 offers high fuel efficiency, long range, low fire risk and a long service life. All these characteristics are, according to our experience, crucial for our customers."

The CXO300 is the world's highest power density diesel outboard. The final concept CXO300 is based on a 4-stroke, V8 architecture. It has been developed for professional applications, where performance, durability and fuel efficiency are paramount.

Cox Powertrain has been partnering with its global distributors and boatbuilding partners to run a full programme of demonstrations, with public demonstrations commencing January 2019.

Anyone interested in buying or switching to a high-powered diesel outboard is being urged to register their interest to take part in a demonstration at www.coxmarine.com/en/demo

About Cox Powertrain

Cox Powertrain is a world-leading British designer and builder of diesel engines developed for worldwide and multi-market applications.

Based on the South Coast of England, Cox Powertrain is backed by the Ministry of Defence and a solid shareholder base of private and institutional investors. As a result, the company has been able to implement a long-term development programme of ground-breaking new products.

Led by ex-Cosworth CEO, Tim Routsis, whose background lies in engine development in global automotive, aerospace and marine markets, the company's mission is to deliver a completely new concept in diesel engines that has the potential to revolutionise the marine market.

With a strong pedigree in Formula 1 racing and premium automotive design, Cox's highly skilled team of engineers has decades of experience in combustion engines and understand the many difficulties customers are challenged with.

Cox's first ground-breaking diesel outboard engine, the CXO300, is the highest power density diesel outboard engine ever developed. As a low weight, high power, single fuel engine, the CXO300 delivers the same performance and efficiency of an inboard but with the convenience and flexibility of an outboard.
