## Fischer Panda UK Demonstrates Strong Military Presence at DVD 2022

*Exhibiting on stand C4 604, Fischer Panda UK will showcase auxiliary power solutions and equipment to the Defence industry on 21 - 22 September, UTAC Millbrook, Bedfordshire*

Auxiliary mobile power solutions provider Fischer Panda UK is highlighting its presence in the Defence industry at DVD2022 this month. Attending for the 17th year, the company specialising in mobile power solutions for military vehicles and auxiliary equipment, will inform visitors through sharing

its knowledge and expertise and by showcasing its diverse products paralleled with world-class service and aftercare.

Dorset based for over three decades, Fischer Panda UK will display a full range including low energy and low noise generators, power electronics, fuel cleaning units and portable water purification back-packs, most of which is certified under the NATO codification system (NCS), ensuring that products and equipment have met appropriate standards to be regularly supplied to the organisation.

Also on display will be the NATO codified Parker Platoon Reverse Osmosis System H2O-PRO, capable of providing fresh water from any water source including seawater with the ability to process 25 gallons per hour. The high-capacity water system allows for the production of fresh-water in the most extreme conditions, while taking minimal time to set-up and uses NATO electrical connections.

“DVD provides us with a key platform to share developments and knowledge about equipment important to the industry,” said Barry Fower, Fischer Panda UK’s Managing Director.

He added: “We have experienced a marked increase in interest from various military divisions including The Royal Marines and The British Army, particularly in relation to our water desalination systems, with some important contracts in the pipeline. We are looking forward to meeting visitors to develop ideas and to generate an even greater understanding of requirements within the industry.”

Fischer Panda UK boasts a substantial client list including Pioneer Drilling, ExxonMobil, ProSafe, Hercules Offshore, Maersk and many more and it is respected around the world as a supplier and installer of generators, integrated mobile power solutions, hybrid electric propulsion systems and air-conditioning systems for the marine, vehicle and military markets.

## About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and water makers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
