## Fischer Panda UK: Fischer Panda UK Awarded Mastervolt Distributor of the Year 2018 Title for Highest Overall Growth

Fischer Panda UK has received the Mastervolt Distributor of the Year Award 2018 for Highest Overall Growth after posting the leading annual sales improvement among Mastervolt's worldwide distributor network. Fischer Panda collected the honour on the Power Products LLC stand during this year's METSTRADE in Amsterdam.

After joining forces with the marine and mobile power systems pioneer in 2012, Fischer Panda UK has continued to expand its compatible Mastervolt power solutions around its generator and electric propulsion systems, watermakers and air-conditioning equipment, resulting in positive sales growth each year.

Barry Fower, Managing Director of Fischer Panda UK, said: “Our partnership with Mastervolt has been a huge success for us over the last six years so we were delighted to stand out from all the global distributors with recognition in this year’s awards. In the past year, our cooperation with Power Products LLC has expanded to encompass digital switching specialist CZone, as well as Mastervolt, which positions Fischer Panda UK as a prime supplier of marine and mobile power solutions in this country. Both the CZone products and the Mastervolt solutions tie in perfectly with our products, enabling us to offer superior integrated systems solutions. We are looking forward to providing our customers with the latest Mastervolt equipment in the years ahead.”

Fischer Panda customises engineered Mastervolt power solutions for boat and vehicle owners with or without generators, including a one-off inverter or battery charger, or a fully integrated system. With a power range from 300W to 40kW, the choice ranges from the latest Lithium-Ion technology to Gel and AGM lead acid service batteries. In addition, as distributor for Bellmarine electric drive systems, Fischer Panda can also offer compatible Mastervolt solutions for complete and fully-integrated electric propulsion systems.

As a partner of digital switching specialist CZone since December 2017, Fischer Panda UK can now offer the full system integration package incorporating both Mastervolt and CZone products. Its compatible Mastervolt power solutions and CZone control and monitoring functionality provide customised system integration around a Fischer Panda generator purchase.

Mastervolt is a global leader in electrical systems and components for the marine and mobile market, providing innovative and reliable equipment from power conversion to power and circuit management. Its broad range of electrical components and systems includes batteries, battery chargers, inverters, inverter/chargers, isolators, converters, transformers, digital switching systems, electric propulsion products and more. Mastervolt is part of Power Products LLC, which includes various major brands including Ancor, BEP, Blue Sea Systems, CZone, Lenco Marine, Marinco, Mastervolt and

ProMariner.

Suppliers of marine generators, electric propulsion, air-conditioning, watermakers, and power monitoring and control solutions, Verwood-based Fischer Panda UK offers full-system design capability, servicing and aftercare for a variety of commercial and leisure applications in both the marine and vehicle markets. **About Fischer Panda UK**

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
