Fischer Panda UK: Fischer Panda UK Expands Sales Team with Appointment of New Marine Sales Executive

Leading systems specialist Fischer Panda UK has continued its expansion with the appointment of a new Marine Sales Executive, Robert Tuck.

With a strong background in the automotive sector and a keen interest in engines and electronics, Robert joins the Dorset-based firm as demand continues to increase for Fischer Panda's product range in the leisure, commercial and OEM maritime markets. He will focus on further expanding

sales for Fischer Panda's generators, electric propulsion, watermakers, air-conditioning, power systems, and monitoring and control solutions, as well as managing, maintaining and growing existing customers and accounts, dealing with incoming enquiries and liaising closely with the engineering team.

Robert said: "I have always been interested in the marine industry, from small sailboats to large superyachts, and have a technical outlook, so it is great to be able to combine my passions and turn it into a prosperous career. With a fantastic track record and market-leading products, Fischer Panda UK is the perfect place for me to learn from the expert team around me and help the company reach even greater heights in the marine sector. I look forward to an exciting future with this growing firm."

As well as expanding its sales team, Fischer Panda UK has increased the number of certified technicians to ensure superior technical support, expertise and aftercare for its growing customer base. During a successful 2018 for the marine business, Fischer Panda received Lloyd's Register Type Approval for its generators, and picked up a BMEEA Product of the Year award and Mastervolt Distributor award.

Chris Fower, Sales and Marketing Director for Fischer Panda UK, said: "We welcome Robert to the team during an extremely positive time for the company, with our product portfolio expanding and some exciting customer projects progressing well. Robert will be working to strengthen sales across a range of marine products including the award-winning Panda 4000s Neo and Panda 5000i Neo, our market-leading iSeries of variable speed 'Perfect Power' generators, as well as electric propulsion systems, watermakers and air conditioning."

Award-winning distributor Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare for a variety of commercial and leisure vessels. Visit www.fischerpanda.co.uk for more information about Fischer Panda's range of marine generators and other products.

About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
