Fischer Panda UK Joins Forces with Clayton Power to Revolutionise Portable Power Solutions

Unveiling Cutting-Edge All-in-One Lithium Power Supply for UK Market

Fischer Panda UK, a leading provider of high-quality vehicle and marine power solutions, is thrilled to announce a strategic partnership with Clayton Power, a renowned innovator in advanced power systems. This collaboration expands Fischer Panda UK's portfolio to offer a unique, versatile, all-in-one

power solution for both the automotive and marine sectors.

Fischer Panda UK customers can now opt for solutions from Clayton Power's range of All-in-One Lithium Power Supply (LPS) generators, featuring models such as LPS II 3000W (160Ah), LPS II 2500W (100Ah), LPS II 2000W (100Ah), and LPS II 1500W (100Ah). Designed with a focus on efficiency and versatility, these units are set to elevate mobile and off-grid power systems, benefiting automotive applications including service vehicles; blue light vehicles; commercial vehicles and specialist vehicles as well as marine applications requiring small to medium levels of onboard portable power.

Designed with user convenience in mind, the LPS II range not only prioritises environmental sustainability but also offers a semi fixed, hassle-free power source for users on the go, without the complexities of additional equipment and full system overhauls. These All-in-One Lithium Power Supply units provide a cost-effective alternative to full system solutions, ensuring Fischer Panda UK customers can access premium power technology without excessive financial outlays.

Commenting on the new partnership, Chris Fower, Sales & Marketing Director at Fischer Panda UK, remarked; "We are thrilled to join forces with Clayton Power to enhance our offerings in the portable all-in-one power sector. This collaboration aligns with our commitment to delivering a comprehensive range of top-notch, green power solutions that meet the diverse needs of our customers in the automotive and marine sectors.

We firmly believe that the LPS II range of products complements our existing range of power equipment from Fischer Panda Generators and Mastervolt Power Electronics perfectly, providing us with the capability to cover all types of onboard power demands for a variety of applications."

Karl Jones, Head of UK Sales at Clayton Power reinforces; "We are really excited about our partnership with Fischer Panda UK. Clayton Power's All-in-One Lithium Power Supply (LPS) solutions, perfectly complement Fischer Panda UK's commitment to reshaping the landscape of portable power in automotive and marine sectors.

Our easy-to-use and sustainable products are a cost-effective option for customers looking for a seamless and innovative installation to meet their power needs. We're very much looking forward to a powerful partnership!"

As the demand for more sustainable and efficient power solutions continues to grow,

this collaboration also emphasises a commitment to environmental responsibility. The All-in-One Lithium Power Supply (LPS) generators boast design features that contribute to reduced CO2 emissions through eliminating the need for idling when supporting the functionality of the vehicle's requirements; this LPS system is not only CO2-friendly but also helps to improve fuel-efficiency.

With the combined expertise of Fischer Panda UK and Clayton Power, customers can trust in the reliability, performance, and technical prowess of the LPS II range, reinforcing Fischer Panda UK's position as experts in power solutions for a range of applications, working in partnership with leading global brands.

About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing, and aftercare as a leading distributor of diesel generators, air-conditioning systems, hybrid electric and propulsion solutions, integrated mobile power solutions and water makers for a variety of applications across the automotive and marine sectors.

Renowned worldwide as innovative, reliable, and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board. Other world-class products from Fischer Panda UK include mobile power solutions working as the exclusive UK automotive distributor for Mastervolt and a wide range of refrigeration and air-conditioning solutions as the UK exclusive distributor for Autoclima.

Other world-class products from Fischer Panda UK include desalination systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK was among the first companies to achieve ISO UKAS 9000:2015 accreditation and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset.

Active in the military and automotive sectors, the company works with UK MOD and other military units around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
