Fischer Panda UK Returns to Emergency Services Show Showcasing Efficient Green Technology for Blue Light Sector

Emergency Services Show 2023, 19th to 20th September 2023, NEC, Birmingham

Specialists in integrated mobile hybrid power solutions, Fischer Panda UK, will be demonstrating the latest innovations in customised electric, power and HVAC systems for the vehicle sector at this year's Emergency Services Show.

As a trusted provider of complete system solutions, Fischer Panda UK will be on hand to showcase the latest range of products from leading brand partners, such as Mastervolt and Autoclima. Demonstrating how hybrid systems can be designed to help reduce fuel consumption, noise emissions and maintenance costs, the expert team can also advise on system solutions which help towards reducing CO2 emissions whilst ensuring continuous power supply and optimum performance in critical situations.

Fischer Panda UK will display applications at the show demonstrating their technical expertise in offering supply, installation and service of complete customised solutions for specialist application vehicles including incident response units, command centres, and mobile medical units.

"We are delighted to be attending the Emergency Services Show again this year," said Ian Saunders, Sales Manager at Fischer Panda UK. "As a dependable supplier within this sector, we understand the crucial importance of reliable power solutions when it comes to saving lives and safeguarding communities. Our continued affiliation with this event is an important opportunity for us to showcase our latest innovations and express our ongoing commitment to supporting the emergency services industry."

Visitors to the Fischer Panda UK stand can speak to the company's expert team who will be on hand to demonstrate products and provide comprehensive advice and information on the systems available as well as the innovations towards greener solutions. Technical vehicle specialists from the organisation will also be available to discuss bespoke system solutions geared towards the specific needs of emergency services operations.

Visit www.fischerpanda.co.uk for more information about Fischer Panda's range of systems and more news leading up to the Emergency Services Show.

About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators, air-conditioning systems, hybrid electric solutions and integrated mobile power solutions for a variety of commercial and specialist application vehicles.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Other world-class products from Fischer Panda UK include mobile power solutions working as the exclusive UK automotive distributor for Mastervolt and a wide range of refrigeration and air-conditioning solutions as the UK exclusive distributor for Autoclima.

Fischer Panda UK was among the first companies to achieve ISO UKAS 9000:2015 accreditation and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset.

Active in the military and automotive sectors, the company works with UK MOD and other military units around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
