

Sold! The Fischer Panda 25i generator bought by The Majestic Line (Scotland) Ltd

Sep 19, 2019 12:23 BST

Flying Start for Fischer Panda UK at Southampton Boat Show

Southampton International Boat Show, 13th to 22nd September, Fischer Panda UK, Stand E020

Fischer Panda UK celebrated a fast start to the Southampton International Boat Show with the sale of its first generator to cruise liner operator The Majestic Line (Scotland) right on show opening last Friday.

The positive news, marked by a 'sold' sign on the Panda PMS 25i variable

speed genset outside the Fischer Panda display trailer, set the Verwood-based generator specialist up for another successful 10 days on Stand E020.

Following the boat show deal, [The Majestic Line](#) and Fischer Panda UK are in discussions to extend the new partnership with the supply of additional generators to power its fleet of four small ships cruising along the sheltered lochs and islands of the West Coast of Scotland and the Hebrides.

The large 25i generators, installed to power the galleys and cabins, are ideal for The Majestic Line's two converted traditional vessels and its two new purpose built steel hulled vessels due to their compact size and variable speed capability, improving efficiency and reducing running costs and fuel consumption.

Chris Fower, Marketing Director, Fischer Panda UK, said: "The sale of the first unit on the first day was a great boost and set a really optimistic mood for the rest of the show. We are looking forward to doing more business with The Majestic Line and equipping more of its vessels with our next generation gensets."

Southampton Boat Show

The iSeries generators are included in the product range on show in Fischer Panda UK's display trailer at [Southampton Boat Show](#) at Stand E020. Providing visitors with a first-hand, interactive experience of its complete system capability, the marine generator, electric propulsion, air-conditioning, watermaker, and power monitoring and control supplier is bringing its latest technology and equipment direct to boaters with live demonstrations and the chance to see, hear and operate the products for themselves.

About Fischer Panda UK

Celebrating its 25th anniversary year, Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators and a major supplier of the latest technology in air-conditioning systems, hybrid electric propulsion systems, integrated mobile power solutions and watermakers for a variety of commercial and leisure vessels.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Fischer Panda generators from the Panda 4000s Neo up to the next generation iSeries Panda 45i genset have passed type approval by members of the IACS (International Association of Classification Societies) board.

Other world-class products from Fischer Panda UK include desalination

systems from Sea Recovery, HRO, and Village Marine, with models suitable for day-boats to warships and offshore platforms, plus air-conditioning systems from leading marine HVAC supplier Dometic, CZone digital switching and Mastervolt power solutions.

Fischer Panda UK is ISO UKAS 9000/1 accredited and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset. Its experienced engineers, sales and operational staff work with OEMs to develop integrated systems for custom vessels and offer specialist technical support and on-going aftercare to its customers.

Also active in the military and automotive sectors, the company works with UK MOD and other armies around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
