Growth Plans Bolstered with Fischer Panda UK's Announcement of New Partnership at the Commercial Vehicle Show 2022

The UK's number one mobile power solutions specialist Fischer Panda UK is supporting its five-year growth plans with the announcement of a new partnership, reinforcing its position within the commercial vehicle market. Through collaboration with leading Italian company [Autoclima](#), with over 50 years of operating in the air-conditioning and refrigeration sector, Fischer

Panda will become the exclusive supplier of its cutting-edge vehicle air-conditioning products in the UK and Ireland.

Distribution of Autoclima air-conditioning and refrigeration systems will include several market leading products from multi-purpose roof mounted air conditioning to internal engine-driven solutions, which visitors will be able to see on the Fischer Panda UK stand.

Ian Saunders, Fischer Panda UK's Vehicle & Specialist Applications Sales Manager: "We're elated about our new partnership which has been timed perfectly to announce at this year's Commercial Vehicle Show." He also said: "It is an honour to partner with such a respected, leading brand which will extensively enhance the Fischer Panda UK offering to the commercial vehicle sector."

Export Sales Manager for Autoclima, Luigi Lanfranco, said: "We have worked hard at considering the best UK company to work with as part of our strategy to improve in the UK. We look forward to working with the Fischer Panda UK team who I am confident will support AutoClima's growth in this market."

Founded in 1963 with a philosophy based on foresight and entrepreneurship, Autoclima accelerated in the automotive air conditioning sector through carefully interpreting market demand and making significant developments in production, which involved transitioning from air-conditioners for cars to the production of air-conditioning systems for niche commercial vehicles.

As providers of integrated power and HVAC system solutions to the automotive and specialist vehicle sector, Fischer Panda UK can support simple spot cooling for problem areas and provide ways to accurately control the whole on-board environment, with system design to suit any vehicle application, added with top-class servicing and aftercare.

Fischer Panda UK also leads in the distribution of diesel generators, hybrid electric solutions and integrated mobile power solutions for specialist applications in the marine, military and broadcast industries.

For updates leading up to the show follow Fischer Panda UK on [LinkedIn](#) and for more information on its range of vehicle power solutions visit www.fischerpanda.co.uk.

About Fischer Panda UK

Fischer Panda UK Ltd offers full-system design capability, servicing and aftercare as a leading distributor of diesel generators, air-conditioning systems, hybrid electric solutions and integrated mobile power solutions for a variety of commercial and specialist application vehicles.

Renowned worldwide as innovative, reliable and extremely quiet, the extensive Fischer Panda range of compact diesel generators includes its next generation highly efficient and powerful variable speed iSeries-Generators. Other world-class products from Fischer Panda UK include mobile power

solutions working as the exclusive UK automotive distributor for Mastervolt and a wide range of refrigeration and air-conditioning solutions as the UK exclusive distributor for Autoclima.

Fischer Panda UK was among the first companies to achieve ISO UKAS 9000:2015 accreditation and operates from a purpose built 9,000 sq. ft facility in Verwood, Dorset.

Active in the military and automotive sectors, the company works with UK MOD and other military units around the world providing solutions for specialist vehicle and land-based applications. Two thirds of Formula 1 mobile truck units install Fischer Panda generators, as do the BBC, Sky and many other mobile broadcasting vehicles.

Operating since 1977, Fischer Panda GmbH is headquartered in Paderborn, Germany. The Fischer Panda team covers more than 500 technicians and partners in over 90 countries worldwide.
