Kongsberg Maritime: Kongsberg Maritime Launches New Training Portal

- www.training.km.kongsberg.com goes live today
- New portal simplifies selection and booking for training courses at all Kongsberg Maritime training centres globally

Kongsberg, Norway, 19th December 2016 – Kongsberg Maritime has today launched its new global training website – www.training.km.kongsberg.com. The new portal improves functionality for selection and booking of Kongsberg Maritime's diverse training course portfolio, which is available at

modern training centres in 11 countries. With the launch of the new portal, Kongsberg Maritime's global training schedule is now accessible to all visitors with a fresh design and easy navigation that allows courses to be booked in minutes.

Kongsberg Maritime's new training portal provides information on course content, pre-requisites and assessment information, as well as duration and cost. Courses can be searched by location or course category and dates can be viewed in list view, along with availability. Developed using contemporary design standards and tools, the streamlined new website is designed to be easily viewed on handheld devices, meaning courses can be booked straight from desktop, tablet or mobile.

Kongsberg Maritime's new training portal streamlines booking for more than 130 distinct training courses available worldwide in addition to vessel specific and customised courses. The company, renowned as a leading maritime technology developer is also at the forefront of maritime training, offering a varied course portfolio covering all aspects of automation, dynamic positioning, navigation, reference systems and subsea survey and crane operations. Type Specific and generic training includes courses recognised by DNV-GL, IMCA and the Nautical Institute.

"We offer an extensive range of courses globally so the new website has been designed to ensure customers can easily find course availability and submit booking requests," said Eirik Hagensen, General Manager, Global Customer Training, Kongsberg Maritime. *"With such a diverse course offering, it's important that we provide clear, user-friendly access to help our customers find the courses they need at the right time and location, and we believe our new online training portal achieves this."*

About Kongsberg Maritime

Kongsberg Maritime is a global marine technology company providing innovative and reliable technology solutions for all marine industry sectors including merchant, offshore, subsea and naval. Headquartered in Kongsberg, Norway, the company has manufacturing, sales and service facilities in 20 countries.

Kongsberg Maritime systems for vessels cover all aspects of marine automation, safety, manoeuvring, navigation, and dynamic positioning. Subsea solutions include single and multibeam echo sounders, sonars, AUV/Underwater Robotics, underwater navigation, communication and camera systems.

Training courses at locations globally, LNG solutions, information management, position reference systems and technology for seismic and drilling operations are also part of the company's diverse technology portfolio.

In parallel with its extensive technology portfolio, Kongsberg Maritime provides services within EIT (Electro, Instrument & Telecom) engineering and system integration, on an EPC (Engineering, Procurement & Construction) basis.

Kongsberg Maritime delivers solutions that cover all aspects of technology underwater and on the water, aboard new build and retrofit vessels, and on offshore platforms and rigs, often under a single supplier strategy called The

Full Picture.

Kongsberg Maritime is part of Kongsberg Gruppen (KONGSBERG), an international, knowledge-based group that celebrated 200 years in business during 2014. KONGSBERG supplies high-technology systems and solutions to customers in the oil and gas industry, the merchant marine, and the defence and aerospace industries.
