## Mastry Engine Center Introduces New Maspower MPW2.5PE Portable High Pressure Pump

*The compact YANMAR engine-driven set delivers high volume and pressure for effective use within a range of marine construction and dock repair applications*

Leading marine power specialist Mastry Engine Center has expanded its range of YANMAR engine-driven Maspower pumps with the launch of the MPW2.5PE Portable High Pressure Pump.

Ideal as an on-site diesel unit for dockyard repair work, cleaning barges and equipment, and jetting-in pilings on marine construction jobs, the new pump set is the latest addition to the Maspower Premium Series Pressure Pumps range.

The MPW2.5PE, featuring 2.5 in cast iron suction and discharge male NPT port sizes, delivers high volume and pressure in a compact, portable package.

The pump set has a maximum working pressure of 123 psi, maximum flow up to 218 gpm and maximum total head up to 285 ft. Powered by a YANMAR Tier 4 final EPA certified engine, the package weighs 162 lbs and measures 30.3 in. (L) x 19 in. (W) x 24 in. (H), with cast aluminum construction and stainless steel bushing. Other features include electric and recoil start, exhaust primer and wheel kit as an option.

Available for worldwide export, all the Maspower Premium Series FP25 pressure pumps feature high volume and high head, due to the large diameter close-impeller design.

Mastry Engine Centre (MEC) is renowned for its ability to provide advanced gas and diesel power solutions to OEM and re-power markets.

For more information, visit MEC at Stand 719 at Citrus Expo in Ft. Myers, FL, on August 14<sup>th</sup> and 15<sup>th</sup>, or go to [www.maspowerproducts.com](http://www.maspowerproducts.com) or [www.mastry.com](http://www.mastry.com).

## **About Mastry Engine Center**

Mastry Engine Center (MEC) was founded in 1962 by D. Eugene Mastry and provides market-leading sales, engineering, service, repower and parts support covering a wide range of engine, powertrain and equipment applications for the marine and industrial sectors. Distributing primarily in the south-eastern United States and Caribbean, Florida-based MEC is one of the largest distributors for YANMAR diesel engines and is the leading Suzuki engine dealer in the US through its Suzuki Repower business. The company also distributes JCB industrial diesel engines, Torqeedo electric propulsion options and MasPower generators, pumps and other products, in addition to offering an extensive spare parts portfolio.

MEC is well equipped to optimize performance, cost, service and reliability for its marine and industrial partners through its extensive network of more than 200 dealers, supporting OEMs and repower markets with equipment applications and advanced power solutions. Delivering excellent customer service with a continued focus on technical training and specialist skills, MEC is dedicated to developing innovative customized solutions for challenging gas and diesel engine applications and installations.
