OneOcean appoints new Head of Sales for Benelux and France

Robert Heijder will be based at the new offices in the heart of Rotterdam

OneOcean has appointed Robert Heijder as its new Head of Sales for Benelux and France. Mr Heijder has a wealth of knowledge and experience, most notably from his time with Transas, provider of ship operations solutions.

Mr Heijder has successfully driven sales teams and has a track record in selling ECDIS, simulation and shore-based systems. He brings the

comprehensive expertise required to power OneOcean's new Rotterdam office through the company's next phase of expansion.

Working in the heart of Rotterdam's world-class industrial complex, Mr Heijder will lead the dedicated sales and support teams while reporting to OneOcean's directorial board.

Speaking about his new role, Mr Heijder remarked: "I know the maritime industry very well and it's an honour to work for the leading provider of compliance and enavigation software. I am looking forward to providing the market with the exceptional platform OneOcean offers."

Active on almost 20,000 vessels, OneOcean is now the largest digital solutions provider in the maritime sector, and its reputation continues to grow with its sales. Its unitary platform is designed to bring down barriers between ship and shore-side teams, providing crucial assistance in addressing ever-increasing levels of regulatory compliance.

If you would like to meet Robert Heijder in the new location at Parmentierplein 20, 3088 GN Rotterdam, NL, please contact the office at Netherlands@oneocean.com or +31 (0)10 416 7622.

About OneOcean

OneOcean is the largest single digital solutions company in the maritime industry and the global leader in digital navigation and voyage compliance. The business supports nearly 20,000 vessels in their regulatory and navigational activities, making life easier for ship owners and managers, both onboard and onshore. Its aim is to simplify e-navigation and compliance with the powerful OneOcean platform built for the future while giving onboard and onshore teams the real-time information they need, when they need it.
