Princess Motor Yacht Sales: Stunning Princess 43 Flybridge Heralds Opening of German Dealership

Hanseboot, Hamburg 2017 Hall B6 Stand B119

Princess Motor Yacht Sales will exhibit the award winning Princess 43 Flybridge at Hanseboot 2017 from October 28th – November 5th. Exhibiting in Hamburg for the first time in many years, Princess Motor Yacht Sales also

announces the long awaited opening of a Princess dealership in Germany which will be located at the popular Ancora Marina in Neustadt on the Baltic coast.

At 14.5 metres in length the Princess 43 is the smallest flybridge motor yacht in the Princess fleet. The spacious accommodation has been beautifully styled throughout with two superbly appointed cabins with ensuite facilities. There is generous seating and dining areas, and a well appointed flybridge which gives the impression of a far larger yacht. As with all boats in the Princess line, the Princess 43 has a powerful hull configuration to provide exceptional sea keeping qualities in all conditions. Meticulous attention to detail and the highest standards of design and build ensured the Princess 43 attained a prestigious "Motorboat of the Year Award".

Stefan Wilms, who will head up the Princess team at Neustadt and will be on the stand at Hanseboot commented, "I am delighted to be representing such a prestigious brand in Germany and opening our first Princess office in Ancona Marina. The Princess 43 is such an outstanding boat to show at Hamburg, a true family cruiser of the highest quality and exceptional styling.

"We know many German Princess owners who keep their boats in Spain and the Balearic Islands where Princess is a major brand. I am delighted that we can now bring the high standards of after sales care and legendary professional service associated with Princess to their home waters in Neustadt. We look forward to meeting prospective owners interested in viewing Princess motor yachts in Germany for the first time."

The Princess Motor Yacht Sales Germany office will open in Ancora Marina in January 2018. Stefan Wilms and his team will be aboard the Princess 43 at Hanseboot 2017 in Hall B6 stand B119 from October 28th.

Ends
