

Genoa Boat Show - Smartgyro Stand TL10

Sep 14, 2023 10:00 BST

Smartgyro returns to the 63rd Genoa International Boat Show to Showcase Innovative Marine Stabilization Solutions

Genoa Boat Show, 21st – 26th September 2023, Piazzale Kennedy 1

Gyroscopic stabilization company Smartgyro is excited to announce its presence at their 'home' show, the Genoa International Boat Show. As an Italian company headquartered in Liguria, this event holds special significance for Smartgyro and provides an ideal platform to showcase their cutting-edge marine stabilization solutions to both the local and

international boating communities.

As the company approaches its 10th anniversary in 2024, this show presents a valuable opportunity to reflect on the technological advancements and progress achieved since its humble beginnings in a garage in La Spezia as an Italian startup in 2014.

At the heart of Smartgyro's mission is a commitment to enhance the experience of boaters and boat builders worldwide. Their offerings are designed to reduce vessel roll, enhance onboard ease of use and maintenance, and elevate overall onboard comfort. The company's unwavering commitment to continuous product development has led to their stabilization systems now catering to vessels ranging from 40 to 95 feet in length.

From the initial prototype onwards, Smartgyro has continued to grow and keep the business operations in Italy, now operating from a large premises in La Spezia. Smartgyro's development team continues to grow the range's offering and are committed to developing innovative advancements to enhance unit efficiency and bolster anti-roll torque. The unwavering dedication and hard work of the original four founders transformed Smartgyro into a pivotal player, offering a truly sophisticated and competitive product engineered to ensure a smooth and enjoyable experience on the water, even in the most challenging sea conditions. Smartgyro's "Feel the Magic" message invites audiences to experience the remarkable capabilities of their gyro stabilizers, turning every boating adventure into something truly special.

Carlo Gazerro, Smartgyro's Sales Director, expressed his enthusiasm for the event, saying, *"For years, the Genoa Boat Show has been an unmissable appointment on our boat show agenda and a source of great pride. Not only does this represent the main Italian event to meet the key players in the marine industry, but it also reminds us of our journey from a small Italian start-up to a global force in marine stabilization technology, still operating from our headquarters in Liguria."*

The show also offers an exceptional opportunity for us to connect with our community and share the incredible strides we've made in marine stabilization technology over the past decade. We are dedicated to improving the seafaring experience for all, and the Genoa Boat Show allows us to demonstrate how our

innovative solutions achieve that goal."

Visitors to the event can meet with Smartgyro's knowledgeable team at Stand TL10 and gain valuable insights into the future of marine stabilization and the unique features of Smartgyro's design.
